

**Specification for Art 71-561 (Mens sizes 5-12)**

***Upper.***

- *This men's boot of a modified Oxford Style leather and fabric upper and fabric quarter and vamp linings, is strong and hard wearing.*
- *This calf height boot is ideal for the Police & Security Industry and can be worn comfortably for long periods at a time.*
- *The tongue is made of a combination of a polyester face fabric and a cotton backing fabric that are stuck together with a suitable adhesive in such a way that the combined fabric is permeable to water vapour.*
- *The BOVA Comfort vamp lining is made from a special needled Hi-tech Fibre Blend which has been treated with "ULTRAFRESH", to impart hygienic and anti-bacterial properties to the material. The Fibre Blend has excellent perspiration absorbency which manifests in a lower heat build up inside the shoe resulting in a more comfortable boot for the wearer.*
- *The quarter lining is from an impregnated non-woven material with high abrasion resistance.*
- *The uniformly spaced eyelets with a smooth star setting, have been treated with a corrosion resistant "gunmetal" coating.*
- *The collar is from a soft nappa leather with foam padding for superior comfort and support.*
- *The lace is braided and made from a polyester yarn with high abrasion resistance together with a central core for additional strength.*

### ***Insole***

- *The slip-in insole is from a wool sock needled onto a polyester base low melting fibre backer with a nominal thickness of 3.5mm.*
- *A special shank reinforcement is moulded into the midsole to give additional support under the arch of the foot.*

### ***Polyurethane Sole***

- *The sole is from foamed polyester polyurethane, for lightness, comfort and flexibility. This boot is made with a **single** density sole for durability and comfort.*
- *The polyurethane sole is an excellent insulator against the cold and has a heat resistance of between 100 and 110C.*

***This boot can be made either with or without a steel toe cap, as required, and also a flexible stainless steel mid-sole can be moulded into the sole to give added protection against the penetration of glass or nails etc.***

***Beier Safety Footwear has a registered quality management system and is an ISO 9001 rated factory.***
